

354.2. Fakultät für Mathematik und Geoinformation

354.2.1 The Geoinformation Group at TU Vienna in Austria is looking for a Post-Doctoral researcher, starting the earliest possible.

We would like you to contribute to our research in the areas of Human-Computer Interaction and Geographic Information Science. The position is not tied to a specific predetermined project. Some of the areas we are interested in are: spatial human-computer interaction, human navigation, location based services, smart cities, augmented and virtual reality, gaze-based interaction, spatio-temporal decision making as well as ubiquitous computing.

We welcome applicants with a doctoral degree in the area of Computer Science and Geoinformation Science or any related field.

We are offering an interesting full position in our group for up to 6 years. We are currently implementing our spatial interaction lab and plan to equip it with mobile and remote eye trackers, body trackers, augmented reality as well as virtual reality glasses, among others.

Contract information

- 6 years position not tied to a project
- 40h/week employment
- Minimum 3711,10 Euro gross (14 x per year)

Application Documents

- Motivation letter
- A Curriculum Vitae
- A copy of education degrees
