RISER - your next adventure?

Who we are: Adventurers like you

RISER is a young, ten-strong company based in Vienna and develops innovative digital solutions in the area of mobility (motorcycling and more): The RISER App is an app for motorcycle enthusiasts and a combination of community features and motorcycle-specific functions for discovering exciting routes.

RISER's everyday work focus lies on the team spirit aspect and a corporate culture that promotes innovation and creativity. If you want to contribute your knowledge and innovative spirit to projects of the future and you are a team player, reliable, self-reliant and structured in your work, we might be a perfect match!

The kind of adventurer we're searching for

We're searching for a backend programmer specialized in geoinformatics, for the development and design of routing services and algorithms, including analysis, evaluation and categorization of users based on position and sensor data.

Salary according to KV IT: 38.5 h / week depending on experience starting from ST 1

Sounds exciting? Then **apply** now at **info@riserapp.com** and start your RISER adventure with us!
